Independent Accountants' Report On
Applying Agreed-Upon Procedures

Dr. David A. DeCenzo
President
Coastal Carolina University
P.O. Box 261954
Conway, South Carolina 29528-6059

We have audited the financial statements of Coastal Carolina University as of and for the year ended June 30, 2009, and have issued our unqualified report thereon under date of September 24, 2009. At your request, we have also performed the procedures described below which were agreed to by the Board of Trustees and management of Coastal Carolina University, solely to assist these users in evaluating the performance of the University's Intercollegiate Athletics Program and to assist the University in complying with NCAA Bylaw 6.2.3.1 for the fiscal year ended June 30, 2009. Management is responsible for Coastal Carolina University's compliance with the requirements of NCAA Bylaw 6.2.3.1, the Intercollegiate Athletics Program's financial records, internal controls and compliance with applicable laws, rules and regulations. This engagement to apply agreed-upon procedures was performed in accordance with attestation standards established by the American Institute of Certified Public Accountants. The sufficiency of the procedures is solely the responsibility of the specified users of the report. Consequently, we made no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

Procedures Related to the Statement of Revenues and Expenditures

1. We obtained the Statement of Revenues and Expenditures of Coastal Carolina University Intercollegiate Athletics Program for the year ended June 30, 2009, as prepared by accounting management of the University and shown on page 7 in this report. We recalculated the addition of the amounts on the statement, traced the individual line item amounts from the Statement of Revenues and Expenditures to management's worksheets and compared the amounts on management's worksheets to the 10 and 15 fund accounts in the University's general ledger.

We found no exceptions as a result of this procedure.

2. We obtained from accounting management a list of all outside organizations that have as its principal purpose or one of its principal purposes the generating of resources for or on behalf of the University's Intercollegiate Athletics Program or the promotion of the Program. We then confirmed the amounts received from these outside organizations directly with the responsible official of these organizations. We compared the amount per the confirmation with the amount recorded in the Athletic Department's general ledger and on the Statement of Revenues and Expenditures.

We read the audited financial statements for the Coastal Carolina Chanticleer Club and compared the contribution total to the balance shown on management's Intercollegiate Athletics Program Statement of Revenues and Expenditures report.

We found no exceptions as a result of this procedure.

3. We scanned the Intercollegiate Athletics Program contributions revenue account detail to identify each individual contribution received directly that constitutes more than ten percent of all contributions received for intercollegiate athletics. For these recorded receipts, we obtained and read correspondence from the donor to determine the receipts were classified in accordance with NCAA guidelines, to identify those received from independent outside sources and to determine that the source and value of each such contribution is disclosed in a footnote to the statement.

We found that the contribution described in Note 1 of Attachment A to the only individual contribution is excess of ten percent of all contributions.

4. We asked accounting management to describe the basis for allocating student athletic fees to athletics and obtained from management the reconciliation of total student fees revenue. We obtained the University's general ledger detail from management and compared the total with the amount of Student Activity Fee revenue recorded in the general ledger and on the Statement of Revenues and Expenditures.

We found no exceptions as a result of this procedure.

5. We obtained all daily cash receipts reports for the Intercollegiate Athletics Program prepared by various program representatives. We then selected a sample and recalculated the reports, compared the amount on the department deposit receipt with the amount on the Bursar's office deposit transmittal, and compared the amount recorded on the Bursar's office deposit transmittal to the amount recorded in the University's general ledger accounts for the Intercollegiate Athletics Program.

325103	6/23/2009	2,720.00
325280	6/25/2009	101.17

We found no exceptions as a result of this procedure.

6. We obtained and read copies of the game guarantee contracts. We recalculated the total amount of the contracts, and compared this amount with the amount recorded as Guarantee revenue on the Statement of Revenues and Expenditures. We also compared expenditures per the contracts to expenditures recorded in the program's accounts in the general ledger.

We found no exceptions as a result of this procedure.

7. We obtained a schedule of athletics department salaries from athletic management. We compared the amounts listed on the schedule to amounts recorded in the general ledger and on the Statement of Revenues and Expenditures. We calculated the related fringe expenditures using Coastal's fringe benefit rate and compared the amounts calculated with the reported expenditures in the appropriate general ledger accounts.

We found no exceptions as a result of this procedure.

8. We obtained from accounting management the general ledger activity for all cash receipts related to intercollegiate athletics. We selected a sample of individual receipts and compared the recorded cash receipt amount to the amount on the Bursar's office deposit transmittal reports prepared by the athletic department and submitted along with the cash to the Bursar's office.

K. Faircloth Ato#400	325427	6/29/2009	2,350.00

We found no exceptions as a result of this procedure.

9. We asked athletic management to describe specific elements of the University's internal control unique to the Intercollegiate Athletics Program's accounting system and financial reporting.

We found no exceptions as a result of this procedure.

10. We obtained from athletic management a listing of Athletics events for the year and from this list we selected a sample of events. For the events that have ticket sales, we compared the number of tickets sold per the general ledger with the amount of tickets sold per the ticket report. We recalculated the mathematical accuracy of the amount of ticket sales revenue by multiplying the number of tickets sold, per the ticket sales report, by the individual ticket price. We obtained and read the correspondence accompanying any concession revenue commission checks received. We compared the amount on the accompanying correspondence with the amount recorded in the general ledger.

We noted no procedure for sale of student tickets when students did not show up for the games. Because the students are not charged for admission, the public purchasing the tickets cannot be recorded in the system. The cashiers take the money and place it in the cash register. The excess money at the end of the game is assumed to be how many student ticket sales there were. There is no procedure in place to verify how much money is actually being taken in based on tickets sold.

The basketball game sales recorded by the ticketing software were \$2,697 less respectively than sales recorded on the University's general ledger.

University Response: The additional funds deposited in excess of the ticket software reports are considered to be reasonable amounts of revenue generated by sale of team complementary tickets and student section tickets not redeemed at basketball games. Due to the nature of these ticket sales and staffing limitations, they are not currently captured by the ticketing software.

11. We selected a sample of recorded expenditures for contractual services, travel, uniforms, financial aid and equipment and supplies from the general ledger. We compared the classification of the selected expenditures in the statement to the classifications permitted by NCAA Guidelines as stated by the NCAA Audit Legislation. For the selected expenditures we obtained the related disbursement package to determine the items required by Coastal's procurement policy were included and that the expenditure had been authorized in accordance with the University's policy.

We found no exceptions as a result of this procedure.

12. We obtained from accounting management a listing of all expenditures made directly by the respective outside organizations on behalf of the University's Intercollegiate Athletics Program or employees to determine if they were included as revenues and expenditures on the University's Intercollegiate Athletics Program's accounting records and the Program's statement of Revenues and Expenditures. We compared the amounts on this list with the amounts recorded on management's worksheets.

We found no exceptions as a result of this procedure.

13. We requested a listing of all marketing contracts made by Athletics for commercials, scoreboard ads, etc. We judgmentally selected a sample to trace contracted amounts to the general ledger.

We found no exceptions as a result of this procedure.

We were not engaged to, and did not conduct an audit the objective of which would be the expression of an opinion on compliance with NCAA Bylaw 6.2.3.1 or the expression of an opinion on The Statement of Revenues and Expenditures of the Intercollegiate Athletics Program of Coastal Carolina University for the year ended June 30, 2009 and, furthermore, we were not engaged to express an opinion on the effectiveness of the internal controls over compliance with the laws, rules and regulations described in paragraph one and procedures one through twelve of this report. Therefore we express no opinion. Had we performed additional procedures other matters might have come to our attention that would have been reported to you.

This report is intended solely for the information and use of the Board of Trustees and management of Coastal Carolina University and is not intended to be and should not be used by anyone other than these specified parties.

NOTE 1-CONTRIBUTIONS

Contributions and gifts to Coastal Carolina University's Intercollegiate Athletics Program totaled \$525,487. This amount is reported in Attachment A at the following captions:

Chanticleer Club Contributions	\$ 224,252
In-kind Gifts	291,785
Coastal Education Foundation	9,450
	<u>\$ 525,487</u>

Individual contributions which exceeded 10 percent of the total contributions and the related donors included in the above amounts are as follows:

Chanticleer Club	\$ 224,252
TPC of Myrtle Beach in Murrells Inlet	168,520
Grande Dunes Golf Resort	122,560

NOTE 2-INTERCOLLEGIATE ATHLETICS - RELATED ASSETS

Capital assets are recorded at cost at the date of acquisition or fair market value at the date of donation in the case of gifts. Coastal Carolina University follows capitalization guidelines established by the State of South Carolina. All land is capitalized, regardless of cost. Qualifying improvements that rest in or on the land itself are recorded as depreciable land improvements. Major additions and renovations and other improvements that add to the usable space, prepare existing buildings for new uses or extend the useful life of an existing building are capitalized. The University capitalizes movable personal property with a unit value in excess of \$5,000 and a useful life in excess of two years and depreciable land improvements, buildings and improvements and intangible assets costing in excess of \$100,000. Routine repairs and maintenance and library materials, except individual items costing in excess of \$5,000, are charged to operating expenses in the year in which the expense was incurred. The total estimated book value of plant and equipment, net of depreciation, for Athletics is \$13,755,109 compared to the institution total of \$94,304,150.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets. The University has selected a useful life of 25 to 50 years for buildings, renovations and land improvements. The useful life for machinery, equipment and vehicles varies between 2 and 25 years depending on the asset. A full year of depreciation is taken the year the asset is placed in service and no depreciation is taken in the year of disposition.

Interest cost incurred during the construction phase of capital assets is reflected in the capitalized value of the asset constructed net of interest earned on the invested proceeds over the same period. During the year ended June 30, 2009, there were no material capitalized interest costs incurred.
